About Linkind

Linking Spaces with Kind Intelligence

Linkind designs lighting that enhances everyday living—simple, intuitive, and beautifully connected.

Our products unite technology with human-centered insight, creating lighting experiences that respond effortlessly to real homes and real people.

Across indoor, outdoor, and entertainment lighting, we focus on solutions that feel natural, adaptable, and elevating—lighting that fits your life, not the other way around.

Our Vision

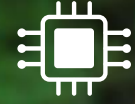

We're shaping a future where lighting becomes a living extension of self expression—deeply personal, emotionally resonant, and seamlessly immersive.

Our vision is to redefine how people interact with light, transforming it from a utility into an experience that inspires creativity and enriches daily life.

Through advanced intelligence, interconnected ecosystems, and sustainable innovation, we aim to build a world where every space feels meaningfully alive.

Outdoor Smart Lighting

Linkind's outdoor range—including spotlights, pathway lights, pool lights, and more—combines wired and solar-powered options to fit any space. With SolarDot™ tech and Bluetooth mesh, setup is smarter, coverage is broader, and your yard shines brighter with less hassle.
